

We've Created What We Consider to Be The Perfect External Portable Hard Drive

Take 90 Seconds to See if You Agree...

❖ BREAKTHROUGH DURABILITY THAT KEEPS DATA SAFE

Handling accounts for more disk drive damage than all other factors combined. No more! Using a proprietary technology, this external drive provides over 425% more shock protection than the competition.

❖ LONG OPERATIONAL LIFE BACKED BY A 3-YEAR WARRANTY

This product is backed with a 3 year warranty compared to only 1 year for most external hard drives. We even provide coverage for accidental drops.

❖ AVAILABLE WITH 5.25" DOCKING BAY

Our docking bay allows this product to be used as a removable drive in a rackmount chassis, PC tower, or other enterprise configurations (see back for examples).

❖ FAST DATA TRANSFER RATE

Transfer a Gigabyte in under 30 seconds with our Serial-ATA cable! Fast USB 2.0 and Firewire cables are also available.

❖ HIGH CAPACITY IN A PORTABLE PACKAGE

Up to **400 GB** - Eliminate unnecessary piles of tapes, CD/DVDs, floppies and Zip media with this single product.

❖ HANDHELD, STACKABLE & STANDS VERTICALLY

Over 40% smaller than competing drives with equivalent capacity; comparable to the size of a VHS tape.

❖ AWARD-WINNING BACKUP SOFTWARE

USB, Firewire and SATA kits include easy-to-use Dantz® Retrospect® backup and disaster recovery software.

❖ EASY TO USE & INSTALL

Plug and Play with recent versions of Windows, Macintosh and Linux operating systems.

AVAILABLE IN THE FOLLOWING CAPACITIES:

120, 160, 250, 400 GB

APPLICATIONS

- ❖ Backup & Disaster Recovery
Replaces Tape: You can rotate and offsite archive this shock-protected hard drive.
- ❖ External Storage
Capacity ideal for digital photos, video, MP3s.
- ❖ Media Consolidation
Eliminates messy piles of media, including large CD collections.
- ❖ Mobile Surveillance/Video Recording
- ❖ Transporting Data
Safely move data between locations with simple plug and play.
- ❖ Secure Retention of Records
Excellent for routine handling, including nightly storage in a vault for safe keeping of classified information (HIPAA, Government, etc).

ULTRA-FLEXIBLE INTERFACE

Use with the following cables (interchangeably):

- ❖ USB 2.0/1.1
- ❖ Firewire
- ❖ Serial ATA (SATA)

Or plug into a

- ❖ 5.25" Docking Bay
- ❖ Enterprise Array System

(See back for more information)

PRODUCT SPECIFICATIONS

Mobile DataVault 3DX External Hard Drive*

*Specifications may vary based on drive capacity

General Characteristics of External Hard Drive

Capacity	120/160/250/400 GB
Height	1.40 in
Width	4.45 in
Length	7.5 in
Weight	1.85 lbs.
Interface	Mini-Centronics (ATA internal)
Interface Compatibility	USB 2.0/1.1, Firewire, SATA, 5.25" Docking Bay
Rotational Speed	7,200 RPM
Buffer Size	8 MB
Avg. Seek Time Read	8.5 ms
	Win 2K/XP, MacOS 8.6 +,

Power Requirements

Supply Voltage	+5V dc / +12 V dc
Startup / Idle	30W / 10W

Shock (half sine wave)

Operating	200 G/2.0 ms
Non-operating	1,200 G/2.0 ms

Warranty

Three Years

See www.olixir.com for more detailed technical specifications, applications, case studies, white papers, and promotions

Specifications are subject to change.

Mobile DataVault 3DX External Drives Offer Superior Versatility:

This product can be used *interchangeably* with any of the following cables and/or docking bay:

USB 2.0/1.1 CABLE

Includes Dantz® Retrospect® Backup Software
(Max. Burst Transfer Rate: 480 Mbps)

FIREWIRE CABLE

Includes Dantz® Retrospect® Backup Software
(Max. Burst Transfer Rate: 400 Mbps)

SERIAL ATA (SATA) CABLE

Includes Dantz® Retrospect® Backup Software
(Max. Burst Transfer Rate: **1500 Mbps**)

5.25" DOCKING BAY FOR RACKMOUNT AND SERVER CHASSIS

Docking bay interface options:
IDE, USB 2.0, Firewire, or SATA

USED IN ENTERPRISE STORAGE SYSTEMS
